Subject Index

A

Abscess
  intramedullary histoplasmosis spinal cord, 212
  spinal epidural, with IgG_4 deficiency, 104
Adolescents, subcutaneous closed suction drainage after posterior spinal fusion for scoliosis in, 508
African-American women, lumbar lordosis in, radiologic and clinical variables in, 200
Aging, sagittal spine and, 44
Announcements, 227
Anterior approach, efficacy of, 477
Anterior cervical instrumentation, delayed esophageal injury with, 519
Anterior cervical surgery, donor site reconstruction after, 20
Anterior fusion
  lumbar interbody, clinical trials for, 113
  for severe cervical kyphosis, 493
Anterior plating
  cervical
    biomechanical testing of, 314
    complications with, 1
  pitfalls of, 513
Anterolateral transpsoatic (ALPA) approach, for prosthetic disc nucleus device implantation, 398
Arachnoid cyst, spinal, with syringomyelia, 207
Arthritis, septic, delayed presentation of, 285
Arthrography, lateral atlantoaxial joint, in atlantoaxial rotatory fixation, 216
Arthroplasty
  ALPA approach in, 398
  cervical, in spondylotic myelopathy, 307
  disc, in partial disc replacement, 324
  lumbar, early results of, 352
  nucleus prosthesis in, 405
Artificial cervical joint, biomechanical testing of, 314
Artificial disc
  after 1-year follow-up period, 362
  cervical, internal stress distribution with, 441
  complications of, 369
  early results of, 352
  evaluation of, 450
  memory coiling spiral as, 405
Artificial disc nucleus, for lumbar disc herniation, 331
Artificial disc replacement
  heterotopic ossification in, 384
  prospective randomized study of, 424
  treating juxtafusional degeneration with, 390
Atlantoaxial joint, rotatory fixation of, 216
Atlantoaxial stabilization, techniques for, 248
Atlantoaxial vertical subluxation, transoral approach using mandibular osteotomy for, 221
Autograft, local, pitfalls of in anterior cervical fusion, 513
Autograft bone, versus INFUSE bone graft, 113
Axial symptoms, after cervical laminoplasty, prevention of, 497

B

B-twin expandable spinal spacer, for degenerative disc disease, 455
Back pain, discogenic
  nucleus prosthesis for, 405
  partial disc replacement for, 324
Biomaterial, in lumbar posterolateral fusion, 31
Biomechanical testing
  of artificial cervical joint, 314
  of lumbar disc prosthesis, 346
  of nucleus prosthesis, 405
Biomechanics
  of artificial cervical discs, 441
  in burst fracture risk prediction, 180
  of cervical spinal instability under physiologic loading, 55
  with dynamic stabilization of lumbar spine, 418
  posterior fusion instrumentation effects on, 171
  of screw fixation for isthmic spondylolisthesis, 144
  of thoracolumbosacral orthoses, 461
  in total lumbar disc replacement, 412
BMP-2, in anterior thoracic spinal fusion, 137
BMP-7, in posterolateral intertransverse process fusion, 90
Bodily Pain SF-36, after anterior cervical surgery, 20
Bone
  erosive defect of, idiopathic spinal cord herniation with, 299
  local to artificial ratio of in lumbar posterolateral fusion, 31
Bone graft
  harvesting from posterior iliac crest, 27
  INFUSE versus autograft, 113
  local, for multilevel cervical spondylotic myeloradiculopathy, 123
Bone graft substitute, in lumbar posterolateral fusion, 31
Bone morphogenetic protein
  clinical trials for, 113
  in posterolateral intertransverse process fusion, 90
Bony consolidation, with multilevel cervical corpectomies, 1

© 2003 Lippincott Williams & Wilkins

Book reviews: *Spine surgery: tricks of the trade*, 306
Bryan disc, arthroplasty of, 307
Burst fractures
osteoporotic, with neurologic compromise, 10
risk prediction of, 180

C

Cage subsidence, with anterior cervical fusion, 513
Canine model, anterior thoracic spinal fusion in, 137
Capsule rupture, lateral atlantoaxial joint arthrography in, 216
Cervical corpectomy, multilevel, complications of, 1
Cervical fusion, anterior, pitfalls of with titanium mesh and local autograft, 513
Cervical instrumentation, anterior, complications of, 519
Cervical intervetebral discs, internal stress distribution in, 441
Cervical kyphosis, anterior fusion and posterior correction of, 493
Cervical laminoplasty, preventive measures for axial symptoms after, 497
Cervical nerve roots, safe injection of (letter), 539
Cervical plating, biomechanical testing of, 314
Cervical spinal cord injury, anterior versus posterior approach to, 229
Cervical spine
arthroplasty of for spondylotic myelopathy, 307
biomechanics of, 314
deformity of, laminectomy contributing to, 51
instability of under physiologic loading, 55
lateral atlantoaxial joint arthrography of, 216
stabilization techniques for, 248
whiplash trauma to, 195
Cervical spondylotic myeloradiculopathy, multilevel, treatment of, 123
Cervical surgery, anterior, documenting fusion after, 243
Children, superiorly based laminoplasty in, 156
Circumferential fusion, in acute traumatic spondylolisthesis, 524
Coccydynia, coccygectomy for, 100
Coccygectomy, for severe refractory sacrococcygeal joint pain, 100
Coccygodynia, coccygectomy for, 100
Complications
of anterior cervical fusion with titanium mesh and local autograft, 513
of anterior cervical instrumentation, 519
of artificial disc replacement, 369, 384
of epidural steroid injection, 186
with multilevel cervical corpectomies and titanium cage reconstruction and anterior plating, 1
with osteoporotic vertebral burst fractures, 10
of posterior spinal fusion for scoliosis, 508
with ProDisc II in lumbar spine arthroplasty, 352
of threaded cylindrical lumbar interbody fusion devices, 502
Compound muscle action potentials, in electrophysiologic evaluation of lumbosacral single nerve roots, 487
Computed tomography
multiplanar, with anterior cervical surgery, 20
outcomes of after conservative decompression surgery, 261
Computer assisted surgery, in pedicle screw placement, 254
Conservative techniques, CT scan outcomes after, 261
Constraint, in total lumbar disc replacement, 412
Corpectomy
anterior cervical, documenting fusion after, 243
esophageal perforation with, 519
Cross-sectional area, back muscles, comprehensive group training effects on, 271
Curve type, in selecting fusion levels for scoliosis, 71
Cysts, spinal arachnoid, with syringomyelia, 207

D

Decompression surgery
CT scan outcomes after, 261
posterior, for multilevel cervical spondylotic myeloradiculopathy, 123
Deformity, postlaminectomy, 51
Degenerative disc disease
adjacent segment, 171
ALPA approach in prosthetic disc nucleus implantation for, 398
clinical trials for INFUSE bone graft and autograft bone in, 113
complications of artificial disc for, 369
complications of treatment for, 1
motion segments after lumbar fusion for, 338
partial disc replacement for, 324
PDN replacement for, 331
posterior lumbar interbody fusion for, 455
SB Charité disc for, 424
Descending spinal cord tracts, motor evoked potentials in evaluation of, 163
Design, of lumbar disc prosthesis, 412
Diagnosis
functional outcome questionnaires in, 66
for nerve root pathology, 186
Disability, in lumbar lordosis in elderly African-American women, 200
Disc herniation
delayed presentation of septic arthritis in, 285
lumbar, PDN replacement for, 331
Disc prosthesis, shock absorption in, 346
Disc replacement
complications of, 369
heterotopic ossification in, 384
lumbar, 362
partial, 324
total
long-term flexion-extension range of motion after, 435
lumbar, 412
prospective study of, 450
treating juxtafusional degeneration with, 390
Discectomy
microscopic, for idiopathic scoliosis, 528
nucleus prosthesis with, 405
Discography, with intradiscal electrothermal therapy, 130
Donor site
harvesting bone graft from, 27
reconstruction of after anterior cervical surgery, 20
Drainage, subcutaneous closed suction, after posterior spinal fusion for scoliosis, 508
Dural defect, idiopathic spinal cord herniation with, 299
Dynamic stabilization, of lumbar spine, 418
Dynamic testing, of artificial cervical discs, 441

E

Economic outcome, after microdiscectomy for lumbar disc herniation, 150
Elderly
lumbar lordosis in, radiologic and clinical variables in, 200
sagittal profile of, 44
Electrical stimulation, of lumbosacral single nerve roots, 487
Electrophysiology, of lumbosacral single nerve roots, 487
Electrothermal therapy
intradiscal, pig tail technique in, 280
MRI of changes after, 130
Epidermoid tumor, spinal, 193
Epidural abscess, with IgG_4 deficiency, 104
Epidural impingement, tumor spread patterns and risk of, 83
Erosive bone defect, idiopathic spinal cord herniation with, 299
Esophagus
delayed injury of with anterior cervical instrumentation, 519
perforation of, 519
Exercise, for subacute low back pain, 271
Extraforaminal herniation, lumbar, 534

F

Facet, interlocking, lateral atlantoaxial joint arthrography of, 216
Facet joint injection, delayed presentation of septic arthritis after, 285
Failed back surgery syndrome, after lumbosacral fusion, 96
Far lateral approach, for extraforaminal lumbar herniation, 534
Fascia splitting, in harvesting bone graft from posterior iliac crest, 27
Finite element analysis, of cervical spinal instability under physiologic loading, 55
Flexion distraction injury, single-level fixation of, 236
Flexion-extension range of motion, with Prodisc total disc replacement, 435
Fluoroscopy
in pedicle screw placement, 254
virtual, in pedicle screw placement, 254
Follow-up study, of ProDisc II, 362
Fracture-dislocation, lumbosacral, with traumatic spondylolisthesis, 524
Fractures
lumbar hyperextension, 295
single-level fixation of, 236
tumor spread patterns and risk of, 83
Functional outcome
after microdiscectomy for lumbar disc herniation, 150
of flexion distraction injury, 236
of ProDisc II, 362

© 2003 Lippincott Williams & Wilkins

questionnaires on in primary screening of spinal disease, 66
Fusion
anterior
cervical, pitfalls of with titanium mesh and local autograft, 513
efficacy of, 477
thoracic spinal, in dogs, 137
for cervical spinal cord injury, 229
circumferential, 524
documenting after anterior cervical surgery, 243
for isthemic spondylolisthesis, 144
levels of in scoliosis surgery, 71
lumbar
adjacent motion segments after, 338
posterolateral, local to artificial bone ratio in, 31
for multilevel cervical spondylotic myeloradiculopathy, 123
posterior
instrumentation of, biomechanic effects of, 171
subcutaneous closed suction drainage after, 508
posterolateral, for chronic low back pain (letter), 225
posterolateral intertransverse process, BMP-7 effects on, 90
for spondylotic myelopathy, 307
Fusion cage, clinical trials for, 113

G

Guideline equations, biomechanically derived, for burst fracture risk prediction, 180

H

Halo-vest, in atlantoaxial stabilization, 248
Herniated disc
extraforaminal lumbar, 534
functional and economic outcome of microdiscectomy for, 150
lumbar, electrophysiologic evaluation of, 487
PDN replacement for, 331
treatment and diagnosis of nerve root pathology in, 186
Herniated spinal cord, idiopathic, 288
with large erosive bone defect, 299
High-intensity zone, magnetic resonance imaging of, 130
Histoplasmosis spinal cord abscess, intramedullary, 212
Holographic interferometry, showing laminectomy contributing to cervical spine deformity, 51
Hyperextension fractures, lower lumbar, without paraplegia, 295
Hypermobility, laminectomy contributing to, 51

I

IgG_4 deficiency, spinal epidural abscess with, 104
Iliac crest
harvesting bone graft from, 27
reconstruction of, postoperative pain with, 20
Imaging techniques, in documenting fusion after anterior cervical surgery, 243
Immunoglobulin deficiency, spinal epidural abscess with, 104
INFUSE bone graft, versus autograft bone, 113
Interbody fusion
internal stress distribution with, 441
posterior lumbar, for degenerative disc disease, 455
transforaminal lumbar, for isthmic spondylolisthesis, 469
Interbody fusion devices, perioperative complications of, 502
Intervertebral disc herniation
delayed presentation of septic arthritis in, 285
PDN replacement for, 331
Intervertebral disc prosthesis, early results of in lumbar spine arthroplasty, 352
Intradiscal electrothermal therapy
MRI of changes after, 130
pig tail technique in, 280
Intradiscal pressure, posterior fusion instrumentation effects on, 171
Intramedullary histoplasmosis spinal cord abscess, in nonendemic region, 212
Isthmic spondylolisthesis, transforaminal lumbar interbody fusion for, 469

J

Juxtafusional degeneration, with artificial disc replacement, 390

K

Kinematics, posterior fusion instrumentation effects on, 171
King-Moe classification, in selecting fusion levels for scoliosis, 71
Kyphosis, cervical, anterior fusion and posterior correction of, 493
Kyphotic deformity, laminectomy contributing to, 51

L

Laminectomy
in cervical spine deformity, 51
for multilevel cervical spondylotic myeloradiculopathy, 123
Laminoplasty
cervical, preventive measures for axial symptoms after, 497
superiorly based, in children, 156
Lateral mass plate fixation, for multilevel cervical spondylotic myeloradiculopathy, 123
Leg pain, with idiopathic spinal cord herniation, 288
Letters to editor, 225
safer injection of cervical nerve roots, 539
Lordosis, radiologic and clinical variables of in elderly, African-American women, 200
Low back pain
after lumbosacral fusion, 96
discogenic
intradiscal electrothermal therapy for, 130
pig tail technique in therapy for, 280
functional outcome questionnaires in screening for, 66
posterolateral fusion for (letter), 225
subacute, comprehensive group training of paraspinal muscles in, 271
Lower limb muscle, motor evoked potentials of with thoracic cord lesions, 163
LT-CAGE device, for lumbar spine fusion, 113
Lumbar disc herniation
functional and economic outcome of microdiscectomy for, 150
PDN replacement for, 331
Lumbar facet joint, delayed presentation of septic arthritis of, 285
Lumbar interbody fusion, posterior and anterior, complications of, 502
Lumbar spinal stenosis, conservative decompression surgery for, outcomes of, 261
Lumbar spine
adjacent motion segments after fusion of, 338
arthroplasty of, early results of, 352
biomechanics of orthoses for, 461
disc replacement in, 362
dynamic stabilization of, 418
extraforaminal herniation of, 534
hyperextension fractures of without paraplegia, 295
interbody fusion for degenerative disc disease of, 455
lesions of in rheumatoid arthritis, 38
local to artificial bone ratio in fusion of, 31
LT-CAGE tapered fusion device for, 113
perioperative complications of interbody fusion devices in, 502
posterior fusion instrumentation effects on kinematics and intradiscal pressure of, 171
posterolateral fusion of (letter), 225
prosthetic disc nucleus implant for, 398
radiologic and clinical variables of lordosis of in elderly, African-American women, 200
screw fixation of, 144
shock absorption in disc prosthesis of, 346
total disc replacement in, 412, 450
Lumbosacral fusion, pain after, 96
Lumbosacral single nerve roots, electrophysiologic evaluation of, 487
Lumbosacral spine, fracture-dislocation of, 524

M

MacroPore ICM, postoperative pain with, 20
Magnetic resonance imaging
of high-intensity zone with intradiscal electrothermal therapy, 130
in risk assessment for fracture and epidural impingement in metastatic vertebrae, 83
Mandibular osteotomy, transoral approach using, 221
Mechanical loading, of lumbar spine, fusion instrumentation effects on, 171
Mechanical testing, of lumbar disc prosthesis, 346
Memory coiling spiral, as nucleus pulposus prosthesis, 405
Meningitis, aseptic, 193
Metastasis, burst fracture risk prediction in, 180
Metastatic vertebrae, tumor spread patterns of and risk of fracture and epidural impingement, 83
Microdiscectomy, functional and economic outcome of, 150
Micrognathia, mandibular, atlantoaxial vertical subluxation for, 221
Microinvasive approach, for extraforaminal lumbar herniation, 534
Minimally invasive procedures, for degenerative disc disease, 455

Mobility, of adjacent segments in lumbar stabilization, 418
Motion restriction, provided by three thoracolumbosacral orthoses, 461
Motion segment
after lumbar fusion, 338
with dynamic stabilization of lumbar spine, 418
with lumbar disc replacement, 412
Motor evoked potentials, of descending spinal cord tracts, 163
Muscle density, comprehensive group training effects on, 271
Muscle strength, comprehensive group training effects on, 271
Myelopathy, multilevel cervical, treatment of, 123
Myxopapillary ependymoma, thoracolumbopelvic stabilization for recurrence of, 108

N

Neoplasms, spread patterns of and risk of fracture and epidural impingement, 83
Nerve root pathology, epidural steroids for, 186
Neurofibromatosis, pedicle screw fixation in, 493
Neurologic compromise, osteoporotic vertebral burst fractures with, 10
Nondestructive testing, of kinematics and intradiscal pressure of lumbar spine, 171
Nonfusion treatment, nucleus prosthesis in, 405
Nucleus pulposus prosthesis, memory coiling spiral as, 405

O

Orthoses, thoracolumbosacral, biomechanics of, 461
Ossification, heterotopic, classification of in artificial disc replacement, 384
Osteoporosis, with neurologic compromise, 10
Outcomes
after conservative decompression surgery, 261
of lumbar spine arthroplasty, 352
with osteoporotic vertebral burst fractures, 10
of ProDisc II after 1-year follow-up period, 362
of SB Charité disc replacement, 424
of single-level anterior cervical corpectomy, 243

P

Pain
after lumbosacral fusion, 96
sacrococcygeal joint, coccygectomy for, 100
Paraplegia, with hyperextension lumbar fracture, 295
Paraspinal muscle, comprehensive group training of for subacute low back pain, 271
Paravertebral muscle, motor evoked potentials of with thoracic cord lesions, 163
Pathology, of rheumatoid arthritis, 38
PDN prosthetic disc nucleus device, in partial disc replacement, 324
Pediatric practice, superiorly based laminoplasty in, 156
Pedicle screw fixation
modified VSP screw in, 268
for severe cervical kyphosis, 493
Pedicle screws
for isthemic spondylolisthesis, 144
placement techniques of, 254
Perioperative complications, of threaded cylindrical lumbar interbody fusion devices, 502
Physical therapy, for subacute low back pain, 271
Physiologic loading, cervical spinal instability under, 55
Pig tail technique, in intradiscal electrothermal therapy, 280
Plate fixation, for multilevel cervical spondylotic myeloradiculopathy, 123
Polylactic acid polyethylene glycol (PLA-PEG) block copolymer, in anterior thoracic spinal fusion, 137
Polymer, synthetic, in anterior thoracic spinal fusion, 137
Posterior cervical wiring technique, in atlantoaxial stabilization, 248
Posterior correction, of severe cervical kyphosis, 493
Posterior releasing techniques, for idiopathic scoliosis, 528
Postoperative pain, with donor site reconstruction, 20
Postoperative subcutaneous closed suction drainage, after posterior spinal fusion for scoliosis, 508
Preventive techniques, for axial symptoms after cervical laminoplasty, 497
Prodisc, long-term flexion-extension range of motion with, 435
ProDisc II
after 1-year follow-up period, 362
early results of, 352
Prognosis
for microdiscectomy for lumbar disc herniation, 150
for treatment of multilevel cervical spondylotic myeloradiculopathy, 123
Prospective study, of total disc replacement, 450
Prosthetic disc
after 1-year follow-up period, 362
design and biomechanics of, 412
early results of in lumbar spine arthroplasty, 352
heterotopic ossification in, 384
in partial disc replacement, 324
prospective randomized study of, 424
shock absorption in, 346
treating juxtafusional degeneration with, 390
Prosthetic disc nucleus (PDN) device
ALPA approach for implanting, 398
for lumbar disc herniation, 331
memory coiling spiral as, 405

R

Radiculopathy, with epidural steroid injection, 186
Radiographic analysis
in pedicle screw placement, 254
of transforaminal lumbar interbody fusion for isthmic spondylolisthesis, 469
Radiologic findings
of lumbar lesions in rheumatoid arthritis, 38
in lumbar lordosis in elderly African-American women, 200
Range of motion
posterior fusion instrumentation effects on, 171
with Prodisc total disc replacement, 435
Rat model, BMP-7 effects in posterolateral intertransverse process fusion in, 90
Recombinant human bone morphogenetic protein-2 (rhBMP-2)
in anterior thoracic spinal fusion, 137
for lumbar spine fusion, 113
Rheumatoid arthritis
juvenile, atlantoaxial vertical subluxation for, 221
lumbar lesions in, 38
Risk analysis, of burst fracture in metastatic spine, 180
Roentgenography, in documenting fusion after anterior cervical surgery, 243
Rotatory fixation, atlantoaxial, lateral arthrography in, 216

S

Sacrococcygeal joint pain, coccygectomy for, 100
Sacroiliac joint, pain after lumbar fusion of to sacrum, 96
Sacrum, sacroiliac pain after fusion to, 96
Sagittal alignment
with cervical corpectomies and reconstruction, 1
in transforaminal lumbar interbody fusion, 469
Sagittal profile, of elderly, 44
SB Charité disc prosthesis
complications of, 369
prospective randomized study of, 424
Scoliosis
idiopathic, posterior releasing techniques for, 528
selecting fusion levels for surgery for, 71
subcutaneous closed suction drainage after posterior spinal fusion for, 508
superiorly based laminoplasty for, 156
Screening, functional outcome questionnaires in, 66
Screw fixation
in atlantoaxial stabilization, 248
for isthmic spondylolisthesis, 144
modified VSP screw in, 268
for severe cervical kyphosis, 493
Screw insertion techniques, 268
Screw placement, virtual pedicle, 254
Shock absorption, in lumbar disc prosthesis, 346
Single-level fixation, of flexion distraction injuries, 236
Slip angle, in transforaminal lumbar interbody fusion, 469
Spinal alignment, in elderly, 44
Spinal arthroplasty, prospective study of, 450
Spinal cord
anterior versus posterior approach to injury of, 229
compression of, tumor spread patterns and risk of, 83
intramedullary histoplasmosis abscess of, 212
Spinal cord herniation, idiopathic, 288
with large erosive bone defect, 299
